Portfolio

PROFESSIONAL SUMMARY

Web Developer experienced in building responsive UIs with HTML5, CSS3, and JavaScript, and integrating REST APIs into full-stack applications. Skilled in writing production-level, scalable code using the MERN stack, grounded in SQL, MVC, and OOP, with strong Git-based collaboration and a drive to grow in fast-paced teams.

EXPERIENCE

Junior Associate – IT

OctaScale Technologies Pvt. Ltd.

Jun 2025 – Jul 2026

Prayagraj, India

- Resolved production-level issues in a Ruby on Rails-based MVC system, debugging REST APIs and SQL queries to maintain shipment data accuracy.
- Tracked tickets via Jira and pushed production-ready code using Git, collaborating with cross-functional teams to deploy fixes.

Freelance Full Stack Developer (Project-Based)

Self-Employed

2023 – Present

Remote

- Designed and built full-stack MERN applications tailored to client requirements, handling architecture, UI, and database design end-to-end.
- Delivered responsive, production-ready features via REST APIs on Node.js and MongoDB for multiple clients.

PROJECTS

Cravio – Food Ordering Platform | React.js, Node.js, Express.js, MongoDB, JWT, Stripe

2026

- Developed a full-stack MERN food-ordering platform with food discovery, cart/wishlist, profile management, Stripe Checkout with webhook verification, and real-time order tracking.
- Engineered a secure, role-based admin system using JWT tokens and HttpOnly cookies, with Cloudinary uploads, order management, and analytics dashboards.

AshVerse – Personal Portfolio | React.js, Vite, Tailwind CSS, Three.js, Framer Motion

2025

- Designed a responsive portfolio using React, Vite, and Tailwind CSS, with reusable components and animated project/skills showcases.
- Built immersive 3D visuals using Three.js, including a rotating Earth and particle starfield, with Framer Motion transitions and an EmailJS contact form.

Clinical Decision Support System (CDSS) | Python, HTML, CSS, JavaScript

2025

- Implemented a responsive web interface serving real-time ML-based predictions for healthcare diagnosis support.
- Integrated classification models with the frontend via API calls to deliver real-time results.

TECHNICAL SKILLS

Languages: JavaScript, C++, Python, SQL, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Three.js, Responsive Design

Backend & APIs: Node.js, Express.js, MVC, OOP, REST APIs, JWT, bcrypt

Databases: SQL, MySQL, MongoDB, Mongoose

Tools & Cloud: Git, GitHub, Postman, Jira, Vercel, Render, AWS, Cloudinary, Stripe

ACHIEVEMENTS

- U Hack 3.0 Hackathon (2024)** – Ranked top 10 for the CDSS project, evaluated on ML accuracy and data analysis.
- Freelance Client Delivery** – Delivered multiple full-stack client projects with consistent positive feedback.

CERTIFICATIONS

Web Development – IIIT Allahabad | Machine Learning – IIIT Allahabad | MongoDB – UCER

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

Bachelor of Technology, Computer Science and Engineering

2021 – 2025

CGPA: 7.5

Vishnu Bhagwan Public School, Prayagraj

12th Standard (CBSE)

2020

92.6%
